**ACADEMY
OF
DENTISTRY**

**YEAR BOOK
1957-1958**

TORONTO

President's Foreword

It is with considerable pride that the Academy presents its Year Book for 1957-58. It contains in some detail, our programme for the year. It also provides some insight into the activities carried on by the Academy, calendars of society functions and meetings, and lists of officers and directors of the various dental groups with which we are all closely associated.

I urge you to spend a few moments familiarizing yourself with the contents of this Year Book, and to keep it in a convenient place for reference.

The officers of the Academy feel a keen responsibility to Academy members, and to the profession at large, to promote educational programmes, to provide services which facilitate the practice of dentistry on a high plane, and to cultivate fellowship and understanding among the profession. We have tried and will continue to try to make this Academy year a most interesting one. Our success will depend directly on the support which every dentist in the Toronto area contributes through his membership and loyalty.

ROBERT W. MARSHALL,
President.

FRANK MARTIN

D.D.S., F.I.C.D.

The Academy reflects honour on itself by recognizing the achievements of Dr. Frank Martin. He is esteemed from Coast to Coast in Canada and is widely known in the United States for his contributions to dentistry.

Frank, as he is known to everyone, was born in Dublin, spent his early boyhood in Belfast, then came to Toronto with his parents. He served in the Canadian Dental Corps during the first Great War both in Canada and Overseas. He was in France for eighteen months with the 11th Field Ambulance and was in service at Ypres, Somme, Arras and Vimy Ridge; after this he was moved to Sidcup Military Hospital in England where he earned a reputation in making splints, and surgical prosthesis for those suffering facial and jaw injuries.

At the close of the War, Frank attended Khaki University at Ripon, England, after which he returned to Canada and entered the College of Dentistry of the Royal College of Dental Surgeons at Toronto and later graduated with the famous class of 1923. He then entered private practice with a background of technical experience and a well trained pair of hands. He set for himself a high standard — "To do better dentistry for every patient" — and this has been his ambition to this day.

Dr. Martin is an original thinker, an artist in his work, a teacher and a capable executive. He has been a member of the Faculty of Dentistry staff, University of Toronto since 1936 and presently is associate professor of clinical dentistry in charge of crown and bridge prosthesis instruction. He was president of this Academy in 1934 - 35; president Canadian Oral Prophylactic Association 1943; president Ontario Dental Association 1945 - 46. He is now chairman Publications' Committee, Canadian Dental Association; Registrar and Examiner for Dental Technicians Association; Director Medical Arts Building and many other associations and committees have benefited from his leadership and counsel.

In 1948 the International College of Dentists conferred on him a merited Fellowship. Even in this organization he had been active serving for some years as Canadian Registrar, and now is president of the College.

An honorary life membership in his home society is now being presented and with the honour goes the good will and best wishes of a legion of friends and colleagues.

ANNUAL WINTER CLINIC

This year the Winter Clinic Committee has carefully planned a programme that promises to attract the attention of all those attending. Every phase of the science of dentistry is being covered by outstanding clinicians, together with a few non-dental diversions which will prove to be most interesting. The knowledge gained, together with the fellowship enjoyed, will make your participation in this year's meeting, one which will be highly rewarding.

Subject

HEALTH INSURANCE — WHERE DO WE STAND?

The health insurance movement in Canada is a step by step procedure. We are probably about half-way in this progressive trend to-day. What does health insurance mean to the Dental Profession? What has been done to date? What are the dangers? What is the next step for Dentistry? These are questions which will be dealt with in this address.

Dr. Gullett needs no introduction to the Dental Profession in Canada. During the first World War he saw service as a gunner with the 73rd Battery. Upon discharge he entered the Faculty of Dentistry, University of Toronto and graduated with that celebrated class of 1923. For several years he practised Dentistry in the town of Picton, Ontario, associating himself as a staff member of the local hospital. In 1940 he became the Registrar-Secretary, Royal College of Dental Surgeons of Ontario and held that position until 1956. In 1943 he was asked to accept the added responsibility of Secretary, Canadian Dental Association, a position which he still holds.

He is a Fellow of the American College of Dentists, Honorary Fellow International College of Dentists, Honorary Member American Dental Association, Honorary Member British Dental Association, Honorary Member Michigan State Dental Association together with other Dental affiliations too numerous to include here.

We are most fortunate in having Dr. Gullett accept this invitation to speak to his own Dental Society, on this most timely topic, which is of paramount importance to every Canadian Dental Practitioner.

DENTAL PUBLIC HEALTH

The Dental Public Health Committee had an active year with numerous projects carried on and new projects undertaken. Possibly the two most outstanding programmes had to do with the continuance of the Workshop Conference and the Public Health Week.

The former, under the splendid leadership of Dr. Compton of the Public Health Department had a most interesting programme and discussion session at which numerous civic and civil groups were present. The main types under consideration were (1) Dental needs (2) Dental resources and (3) Dental Health Teaching Practices. The comments and responses to the meeting were most worthwhile. A synopsis of this was presented at one of the Stated Meetings of the Academy.

The public interest was further stimulated by the excellent programme arranged for Public Health Week and particularly Dental Public Health Day where Television and Radio programmes, newspaper coverage and dental presentations to service clubs, churches, etc., were of the highest order. The splendid co-operation of all concerned made the task much easier for all participants.

The solid foundation and lively interest shown in all phases of Dental Public Health should make activities spread out on an ever enlarging sphere.

FIRST STATED MEETING

OSLER HALL

8.15 P.M.

THURSDAY, JANUARY 23, 1958

Essayist: MAURICE J. SAKLAD, D.D.S., New York.

Subject: The Clinical Management of Maligned, Malposed, Mutilated and Missing Anterior Teeth where Esthetics is Important.

This presentation will offer an analysis of the most common clinical restorative problems associated with anterior teeth. Experience shows that the greatest desire of a patient is not only to retain his teeth, but also to have them look attractive. This lecture will discuss the diagnosis and treatment planning procedures for anterior full coverage restoration as it is applied to the clinical problems. It will include a short motion picture, in colour, describing the complete treatment rendered for a patient requiring anterior restorative treatment where esthetics was the prime consideration.

Dr. Saklad is a member of the department of Fixed Partial Prosthetics at New York University College of Dentistry. He is also a special post-graduate lecturer at the United States Naval Dental School, Naval Medical Center, Bethesda, Maryland.

He has an imposing record as a lecturer and post-graduate teacher, having addressed meetings in the West Indies, Central America, Canada and all over the United States. He is a member of the American Dental Association, the American Denture Society, the Academy of Dental Medicine, the American Association for the Advancement of Science and an Associate Fellow of the Greater New York Academy of Prosthodontics.

THE UNITED APPEAL FUND CAMPAIGN

On May 28th, 1957 a meeting of all volunteer canvassers for the United Appeal was held at Hart House, University of Toronto. The group captains and teams were chosen for the various districts businesses and professions at this meeting.

The actual canvass will take place in the last week of September, 1957, with a final meeting prior to this for literature distribution and instruction.

May we here stress the point of remembering that your canvasser will be a busy doctor like yourself with only too little "spare time" for such volunteer work. Please make him welcome when he calls and be ready with your "fair share" pledge of support of the United Appeal for 1958.

Only in this way can we be certain of one annual campaign to support instead of several bothersome appeals either by mail, telephone or in person. Such support by all will assure sufficient funds for all health, welfare and character building services at the lowest possible financial cost.

A. E. K. HOGG,

Chairman Publicity Committee

A SPECIAL INVITATION

A special invitation has been received from the Toronto Radiodontic Study Club for all Academy members to meet with them on Monday, February 24, 1958.

The essayist will be E. Dale Trout of Milwaukee, Wisconsin, an outstanding authority on x-rays and radiation hazards. The subject of his address will be "The Evolution of Equipment for Dental Radiology". Further and more complete notice will be given to members prior to this important event.

SECOND STATED MEETING

OSLER HALL

8.15 P.M.

THURSDAY, FEBRUARY 13, 1958

Essayist: MARVIN C. GOLDSTEIN, D.D.S., Atlanta, Georgia.

Subject: Adult Orthodontics for the General Practitioner.

This presentation will cover the diagnosis and the treatment of the adult patients with disfiguring and dishabilitating orthodontic problems. It will include a discussion on orthodontics as an adjunct to periodontia and general mouth rehabilitation.

Dr. Goldstein was graduated from the Emory University School of Dentistry in 1938. He completed graduate and post-graduate work at the University of Michigan, Columbia University, Northwestern University and the Tweed Research Foundation. He is a diplomate of the American Board of Orthodontics and a member of the American and Southern Association of Orthodontists, the British Society for the Study of Orthodontics, the American Academy of Dental Medicine and the Tweed Foundation for Orthodontic Research.

During the war, Dr. Goldstein served as Major with the 9th Airforce in Europe, he is at present Orthodontist for Aidmore Clinic of Atlanta and Ben Massell Dental Clinic.

THE PRESIDENT'S MESSAGE TO THE ACADEMY

With the approach of each new year there is shown a growing interest and concern over problems relating to all phases of dentistry. Outstanding among these are education, research, disease prevention, promotion of health, and social and economic problems. The Canadian Dental Association is continually alert to these problems and can foresee a successful conclusion to many of them in the future. This success will only be possible because of organizations such as the Toronto Academy who have so vividly demonstrated the highest standards of effort and co-operation.

It is one of my privileges as President to convey our warmest greetings and best wishes to the Toronto Academy of Dentistry.

A. GERALD RACEY.

LADIES' AUXILIARY TO THE ACADEMY OF DENTISTRY

An important adjunct to the Academy of Dentistry is its Ladies' Auxiliary. This year we hope to enlarge our sphere of usefulness to the profession and the community.

In order to do this we need a large active membership. The members of the Academy could help by influencing every Dental wife to become associated with this organization.

REPORT OF THE SECRETARY, 1956 - 1957

This past year in the life of the Academy of Dentistry, has been certainly one of achievement. For the first time the membership climbed above the 600 mark with 572 of this number being active members.

For the past few years, the various councils have discussed the advisability and possibility of a central office of its own, complete with secretary to handle the ever increasing duties of this nature. This past year it became a reality. The Academy was most fortunate in securing Mrs. Barbara Barrett to fill this post of Secretary. As you are already aware, this office is centrally located on the ground floor of the Physicians and Surgeons Building. There are several ways that this office can assist new services which your council feels should be established if we are going to fulfill our responsibility as the representative of organized dentistry at the metropolitan level.

The opening event of the year, the Annual Dinner was held at the Royal York Hotel, Monday, October 22, 1956. Little did we know at that time, that our speaker Mr. Donald M. Fleming was to be later known as The Honorable Donald M. Fleming, Minister of Finance in the Federal Cabinet.

The Winter Clinic under the general chairmanship of our President-elect Dr. Robert W. Marshall was an outstanding event. The feature of the programme was a closed circuit telecast which was carried through in flawless fashion. At this time we might pay tribute to all those who contribute their talent in making the Winter Clinic the tremendous success which it repeatedly turns out to be.

The three Stated Meetings in January, February and March were fairly well attended. Dr. Jay H. Eshleman, having as his subject "The Dentists Responsibilities to His Community, His Practice and to Himself", was our guest essayist in January. The Academy's Workshop Conference which climaxed its day's activities with a summary of the conclusions and recommendations at the stated meeting in February was probably one of the most outstanding events which the Academy has ever sponsored. It is anticipated that out of this conference will emerge the "Council on Dental Health", a body formed for the purpose of following up the 29 recommendations and resolutions of the Workshop Conference. The March meeting had a panel of three essayists who presented projected clinics. Dr. Charles H. Moses, Dr. Peter T. Smylski, and Dr. J. B. Pepper, gave a very splendid presentation.

The Dental Nurses' and Assistants' registry is still performing a very fine service to our members and to the nurses also. Mr. Ian Hannah has been doing a very fine job in administering this service. He is deserving of all the co-operation possible.

A study group on "Socio-economics in Dentistry" was formed during the year and seems to be carrying on successfully.

A very interesting event took place at the March stated meeting, when Dr. T. R. Marshall a Past President himself, installed his own son Dr. Robert W. Marshall as President for the year 1957 - 58, and marked the occasion with the presentation to the Academy of a gavel.

The Academy of Dentistry Prize in the Faculty of Dentistry, University of Toronto was won in 1957 by Norman Fraser Duff.

AUDITORS' REPORT

3rd June, 1957.

The Academy of Dentistry,
Toronto, Ontario.

Gentlemen:

We have prepared the attached balance sheet of the Academy of Dentistry as at 30th April, 1957, together with a revenue and expenditure account. Subject to the following report, we hereby certify that, in our opinion, the attached balance sheet is properly drawn up so as to exhibit a true and correct view of the state of the Academy's affairs at that date, according to the explanations and information given us and as shown by the books.

We report upon the various balance sheet items in their order as follows:

ASSETS

Cash in banks \$4,105.78

Your bankers have confirmed the bank balance to us by certificate.

Furniture and Fixtures \$ 253.30

Less: Accumulated Depreciation 50.66 \$ 202.64

Furniture and Fixtures are shown at cost — less depreciation written off for the year.

Dominion of Canada Bonds \$6,048.27

Details are shown on the face of the balance sheet. We have verified the interest revenue due from these bonds. We have examined the bonds comprising the above total.

LIABILITIES

Accounts Payable Nil

Your Treasurer, Dr. J. A. Bigelow has certified that all known liabilities to 30th April, 1957 have been paid and that there were at that date, no guarantees or contingent liabilities outstanding.

PROFIT AND LOSS

Details are shown on Schedule "A".

A comparison of the total revenue and expenses for the current year with the preceding one is as follows:

	For the Year Ended	
	30th April, 1957	30th April, 1956
Total Revenue	\$8,911.61	\$6,837.15
<i>Less</i>		
Total Expenses	7,530.54	5,705.74
Surplus or Deficit for the Year	\$1,381.07	\$1,131.41

As we were unable to make a complete verification of all the sources of revenue, we are, accordingly, able to certify to the correctness of the revenue account only to the extent that it is in agreement with the books and information given us.

We are,

Yours faithfully,

TESKEY, PETRIE & BURNSIDE,

Chartered Accountants.
